Origin And Evolution Of Life Biology History Of Life Study

A team of geneticists and archeologists from Ireland, France, Iran, Germany, and Austria has sequenced the DNA from a 1,600-year-old sheep mummy from an ancient Iranian salt mine, Chehrâbâd. This ...

DNA from 1,600-year-old Iranian sheep mummy brings history to life  
Advertisement For roughly a year, scientists have debated whether or not Venus has signs of life hidden in its clouds. The theory is based on traces of phosphine gas in its upper atmosphere, a sign of ...

Turns Out (Signs Of Life) On Venus Are Something Completely Different  
Running Across a Lifetime," explores a life of scientific research and discovery in nature, and some extraordinary feats of the human body. And the author himself, Bernd Heinrich, is the subject of ...

Bernd Heinrich on his (unusual) life as a runner and biologist in Maine  
Scientists from The University of Tokyo Institute of Industrial Science have designed a machine learning algorithm to predict the size of an individual cell as it grows and divides. By using an ...

Computer-assisted biology: Decoding noisy data to predict cell growth  
according to a new study published in the journal Current Biology. Throughout the evolutionary history of Homo sapiens, positive natural selection has frequently targeted proteins that physically ...

Coronavirus Epidemic Occurred in East Asia 25,000 Years Ago, Genetic Study Shows  
New human sexology research from two groups of researchers suggests that monogamy may not always be the healthiest way to love and be loved.

Love And Sex With Many: Research On The Health And Wellness Of Consensual Non-Monogamy  
The methane wafting from Enceladus may be a sign that life teems in the Saturn moon's subsurface sea, a new study reports. In 2005, Saturn orbiter discovered geysers blasting particles of water ice ...

Methane in plume of Saturn's moon Enceladus could be sign of alien life, study suggests  
The methane wafting from Enceladus may be a sign that life teems in the Saturn moon's subsurface sea, a new study reports. In 2005, Saturn orbiter discovered geysers blasting particles of water ice ...

Methane wafting from 'tiger stripes' on Saturn moon could be sign of alien life, study suggests  
African coelacanths (Latimeria chalumnae) reach maturity around the age of 55 and gestate their offspring for 5 years, according to a study published ... as well as other life-history traits ...

African Coelacanths Can Live for Up To 100 Years, Scale Analysis Shows  
Echoing through history by reviving fungal specimens originally preserved and described a flabbergasting quarter of a millenium ago by the "Father of Modern Taxonomy" Carl Linnaeus, this study ...

Fungal spores from 250-year-old collections given new lease of life  
St. Jude Children's Research Hospital scientists have used single-molecule fluorescence resonance energy transfer (smFRET) and cryogenic electron microscopy (cryo-EM) to capture six new structures of ...

Molecules in motion: researchers capture six new structures of the ribosome in action  
The severe megafires that occurred in eastern Australia during 2019-20 were much larger and more concentrated across the landscape than in previous years, according to a study by researchers at Penn ...

Australian megafires burn critical habitat of 'vulnerable' virus-harboring bats  
Collecting DNA in waters worldwide can help scientists figure out which places are the most important for conservation.

National Museum of Natural History  
The partnership started when Ellen Zhong, a graduate student from the Computational and Systems Biology (CSB) Program, decided to use a computational pattern-recognition tool called a neural network ...

The power of two  
The study was conducted by an international collaboration ... computational and integrative biology - Cibio of UniTrento, the Paris Brain Institute-Institut du Cerveau at Sorbonne Université ...

Study identifies the cell of origin of medulloblastoma  
The study was conducted by an international collaboration ... computational and integrative biology - Cibio of UniTrento, the Paris Brain Institute-Institut du Cerveau at Sorbonne Université ...

Searching for the cell of origin of childhood brain cancer  
This action funds an NSF Postdoctoral Research Fellowship in Biology for FY 2021, Integrative Research Investigating the Rules of Life Governing Interactions ... to conduct a Genome Wide Association ...

NSF Postdoctoral Fellowship in Biology FY 2021: Evolution of eastern gray squirrels in urban environments  
Researchers published their findings in Current Biology today ... in the other, said study co-author Edward Stanley, director of the Florida Museum of Natural History's Digital Discovery and ...

Study presents new species of bizarre, extinct lizard previously misidentified as a bird  
This remarkable specimen has revealed sheep husbandry practices of the ancient Near East and underlined how natural mummification can affect DNA degradation.
