transmission.

However, a few points for you.

#1, there was a seal revision because some of the older ones would take a set when the vehicle sat for an extended period of time. But once the vehicle was driven, it

would reseal and
not leak further
until stored
again.

Corvette Forum

Installed from the factory, the Computer Aided Gear Selection (CAGS) is a system in all Corvettes with a manual transmission.

What this system does is lock out 2nd and 3rd gear

Download File

PDF C5

between 15-20mph at low throttle applications when leaving 1st gear. This requires you to shift directly into 4th instead of selecting a lower gear.
