New Authoritative Guide for SSAE No. 18 and Sustainability Organizations are increasingly seeking to add credibility to sustainability information: According to the CFA Institute, 73 percent of portfolio managers and research analysts surveyed take sustainability matters into account when making investment decisions and 69 percent believe it is important that such information be subject to independent assurance. This new guide will assist CPAs with interpreting and applying the clarified attestation standards (SSAE No. 18) when performing examination or review engagements on sustainability information. Note: This guide supersedes AICPA Statement of Position (SOP) 13-1, Attest Engagements on Greenhouse Gas Emissions Information. The content of that SOP has been updated for the clarified attestations standards and included in the guide.

Be prepared for change by ensuring that you are current in accounting and auditing developments affecting government. Learn the latest accounting and auditing developments affecting governments by covering these hot topics: Risk assessment Documentation Leases Yellow Book Major program determination New GASB pronouncements

The construction industry comes with many advanced accounting issues, audit procedures, and tax issues, which makes construction contractor engagements inherently higher risk than other engagements. As a result, practitioners and financial professionals should be prepared to address difficult issues such as look-back calculations, measuring progress of contracts, overhead allocations, and internal controls for construction contractors. In this book, some of the most pervasive issues in the construction industry and how to identify and manage the risks inherent in construction contractor engagements are discussed. This book shows how to: Apply complex accounting and financial reporting standards to construction contractors. Evaluate and rework audit processes to avoid common deficiencies in construction engagements. Identify tax compliance issues unique to the construction industry.
