She took one line from a Dolcett cartoon and used that as a jumping off point for a story that's quite dark and interesting and emotionally complex -- along with just a touch of humor or silliness that I like, to keep a story from being TOO dark. There was a double hanging at Holloway jail on the morning of 3 February 1903. As Edith Graydon was skip-hop-skipping her way to school, traveling without foreknowledge through the neat, self-respecting, know-your-place streets of suburban east London, two women were waiting in their death cells to experience the last seconds of life.

"One of the most twisted tales you will ever read . . . a story of cannibal fetishes, a terrified wife, lying FBI agents, a false conviction."—Patrick Quinlan, Los Angeles Times bestselling author \*Optioned in February 2019 for a motion picture\* Raw Deal is the untold story of former New York City police officer Gil Valle, who in 2012 became known throughout the world as "The Cannibal Cop." It is part the controversial saga of a man who was imprisoned for "thought crimes," and a look into a world of dark sexuality and violence that most readers don't know exists, except maybe in their nightmares. After Valle's arrest, media coverage exploded in a frenzy of lurid tabloid headlines and stories about the cop

charged with planning to kidnap, torture, rape . . . and eat . . . women, including his own wife. But here's the fascinating part; there was no such plan in reality. Valle faced life in prison for his charges and served 21 months for nothing more than having online chats about his fantasies. He was finally exonerated of all charges. *Raw Deal* raises the question of when does thought become a crime? A question that goes beyond his perverse sexuality to answers society must deal with in order to meet the challenge of terrorism. It will challenge the reader's beliefs about free speech, the right to privacy, and government's role in watching over us. **WARNING:** This book contains graphic fantasy material of a sexual and violent nature. It is intended for Mature Audiences. "A big part of what makes this book fascinating is seeing the contrast between Valle's extreme interests and his normal life."—Cultured Vultures

*Hari-Kiri* is a definitive text on Japanese ritual suicide, also known as *seppuku*. To the average westerner, the word *hara-kiri* conjures up an image of excruciating, self-inflicted pain; of a deep, fatal incision. To the Japanese, this kind of suicide embodies the best qualities of courage, honor, and discipline. Through extensive research, author Jack Seward brings to the English-speaking public a dissertation on the subject that is thoroughly enlightening. Fluent in speaking, reading, and writing Japanese, he was able to glean information from ancient documents—many of them scrolls in the Japanese archives—that few foreigners have seen. The earliest writings on *hara-kiri* (known more formally as *seppuku*) are thus revealed, as are the intricate rituals surrounding the ceremony. "The major purpose of this book," says the author, "is to clarify the historical and sociological significance of a unique method of self-destruction." In fulfilling this purpose, author Seward has come up with a definitive work that is sure to arouse interest both as a scholarly effort and as simple, fascinating reading.

Anthropophagy - humans eating their fellow-humans - creates a curious blend of revulsion and fascination in the 'civilised' Western world. When the perpetrator is a murderer - most commonly a sadistic serial killer - the crime not only shocks but it causes bewilderment. With this 2015 update of her comprehensive 1993 study of cannibalistic killers, Moira Martingale expands her original research about the making of such monsters. Cannibal Killers tracked the phenomenon from five hundred years ago with the notorious Sawney Bean to those whose names became a byword for horror as the twentieth century waned, such as Jeffrey Dahmer. In this updated version, we see that in the twenty-first century cannibals who thirst for human flesh and blood are still around, and alarmingly, they have moved online.

A boy on the edge of adolescence fears his mother might be a robot; a psychotically depressed woman is entrusted with taking her niece and nephew trick-or-treating; a reluctant dad brings his baby to a coke-fueled party; a teenage boy tries to prevent his mother from putting his estranged father's dogs to sleep. Ranging from a youth arts camp to an aging punk band's reunion tour, from a dystopian future where parents no longer exist to a ferociously independent bookstore, the stories in this collection revolve around the endlessly complex, frequently surreal system that is family.

This book is open access under a CC BY 4.0 license This book explores the magical and medical history of executions from the eighteenth to the early twentieth century by looking at the afterlife potency of criminal corpses, the healing activities of the executioner, and the magic of the gallows site. The use of corpses in medicine and magic has been recorded back into antiquity. The lacerated bodies of Roman gladiators were used as a source of curative blood, for instance. In early modern Europe, a great trade opened up in ancient Egyptian mummies and the fat of executed criminals, plundered as medicinal cure-alls. However, this is the first book to consider the demand for the blood of the executed, the desire for human fat, the resort to the hanged man's hand, and the trade in hanging rope in the modern era. It ends by look at the spiritual afterlife of dead criminals.
