Michael White tries to emulate some other authors as he tries to incorporate the use of occult in a murder series and does a decent job. The plot is pretty good. The book follows a good, uniform pace unlike some others and speeds up as it builds toward it's crescendo.

Equinox by Michael White - Goodreads

Michael White is a very accomplished author, but until now he has used his writing skills to produce a number of non fiction books. He has been a professional musician, a newspaper columnist, a science lecturer and science editor for GQ Magazine. He lives in Australia with his wife and children and this is his first novel.

Amazon.com: Customer reviews: Equinox

Michael White is an experienced author of non-fiction books, and this is his first venture into the darker side of literature - the novel. Equinox could be - and in fact has been - described as a Da Vinci Code knock-off, and to some extent this is true.

Reader review ***** A
BRUTAL MURDER. A THREE-HUNDRED-YEAR CONSPIRACY. A DEADLY SECRET. Oxford, 2006: a young woman is found brutally murdered. Her heart has been removed and in its place lies an apparently ancient gold coin. Twenty-four hours later, another woman is found. This time her brain has been removed, and a silver coin lies glittering in the bowl of her skull. The police are baffled but when police photographer Philip Bainbridge and his estranged lover Laura Niven become involved, they discover that these horrific, ritualistic murders are not confined to the here and now. A shocking story begins to emerge which intertwines Sir Isaac Newton with a deadly conspiracy which echoes down the years to the present day, as lethal now as it was then. Before long those closest to Laura are in danger, and she finds herself the one person who can rewrite history; the only person who can stop the killer from striking again...

Nadat in Oxford twee gruwelijke moorden zijn gepleegd, legt een schrijfster een verband met een 17e eeuws complot rondom alchemisten bloot.

An ancient mystery. A conspiracy of silence. A secret to kill for. In the crypt of the Medici Chapel in Florence, scientist Edie Granger, and her uncle, Carlin Mackenzie, are examining the mummified remains of one of the most powerful families in Renaissance Italy. The embalmers have done their work well in terms of outward appearance. But under the crisp skin, the organs have shrivelled to a fraction of their original size, which means it is difficult to gather usable DNA samples. Edie and Mackenzie both have serious doubts about the true identity of at least two of the 500-year-old bodies. And no one can explain the presence of an alien object discovered resting against Cosimo di Medici's spine. For Carlin

Read Book Equinox Michael White

Mackenzie, this is the most fascinating and the most dangerous discovery of his life. For Edie, it is the beginning of an obsessive, life-threatening quest. The Medici Secret meshes past and present, cryptic clues and constant menace to produce a mystery thriller that does not relax its grip for one single moment.

From tactical to practical, this is a sweeping history of human innovation, and how man's greatest technological leaps have almost always happened in times of war.

An insightful new portrait of the writer and Christian theologian, reveals a depressive, spiritually tormented man who nevertheless forged a respectable career as a scholar, a writer of fantasy books like the Chronicles of Narnia, and a Christian apologist.

The original authorised biography, and the only one written by an author who actually met J.R.R. Tolkien.

If you like Dan Brown, James Becker and Chris Kuzneski, you'll love this high-octane and fast-paced historical page-turner full of twists and turns from international bestselling author Michael White. A must-read! READERS ARE LOVING THE BORGIA RING! 'I was hooked from the first page' -- *****
