Review: Genesis by Bernard Beckett | Books | The Guardian

Genesis is an interesting take on artificial intelligence and the philosophical issues it raises -- as well as a few ethical questions. Beckett's choice of ancient-Greek tie-ins (Anaximander also has a ... mentor named Pericles) are a bit of a distraction, in part also because he does not seem fully committed to the connection, but on the whole the ideas and foundations are very good.

A bestselling YA thriller exploring death, revenge and morality. 'The challenge of the Coast to Coast was for the whole PE class to get itself from one side of the island to the other in under six days. "Where to?" "The bush," I croaked. "Hide." We cut back to the right, down off the track, crashing through the undergrowth and sliding down steep slopes. After a couple of minutes we stumbled to a stop, pressed in close . we waited and listened, the others with their heads bursting with questions, mine spinning with answers I didn't want to believe. Time enough to write it all down, his story of a coast to coast trip and the earthquake that ripped his world apart. A 'top-notch thriller'

Beckett's young adult novel not only tackles the contentious subject of sex, it undercuts, subverts and sends it up as well. Sex was a latecomer to the party of Malcolm's life, and when it did arrive, it didn't come dressed in any of the usual guises. With the mind of a science nerd and the body of a teenager, sixteen-year-old Malcolm embarks upon his latest documentary project: sex. Join Malcolm on his hilarious journey, as he meets the cast of idiosyncratic characters who will take him a little closer to the centre of life's mystery. Will Charlotte find true love? Will Kevin get his guy? How did Juliet lose her virginity and will the school principal succeed in having Malcolm's project banned?

' Lullaby is an amazingly complex novel, exploring the nature of identity and shared memories as well as how we shape the story of ourselves. The questions it raises stay with the reader for a long time after the book is finished. ' New Zealand Herald ' This book is promoted as Young Adult, but many older adults will enjoy it too. Clever and thought-provoking. ' BookMooch ' It was incredible. The complexity of the storyline was nothing short of delicious and encouraged that deep, emotional thinking that is lacking in the majority of young adult novels. ' Diva Booknerd ' It is a rare kind of young adult book that aims to leave the reader with more than just the usual afterthoughts of the story. Beckett encourages the reader on his or her own philosophical journey. ' Book Kat ' This is a fascinating exploration of the notion of self, how far people will go to save those they love, and what scientists will do to advance their research. Well worth reading, and when you've finished, let me know what you thought of the end because I'm dying to discuss it! ' Nicole Has Read, Blog ' This book is a beautiful example of a thought experiment, with characters you feel for, and stories that you enjoy every moment of. ' Booksellers NZ ' Lullaby is very eerie science fiction which, in the telling of the story, discusses the dilemmas that medicine could find itself in when the desire to break new frontiers clashes with ethical principles...Confronting, terrifying and challenging. ' Reading Time ' Bernard Beckett ' s biggest strength isn't that he is able to convey high-minded sci-fi concepts to his usual audience of young adult readers – it is the power of the concepts themselves...It ' s exciting to see a recent scientific concept such as the connectome (a map of neural connections in the brain) used to drive dramatic tension and ask big questions. It takes a tough mindset to be a successful sniper, to be able to dig in for days on your own as you wait for your target, to stay calm on a battlefield when you yourself have become the target the enemy most want to take out. Craig Harrison has what it takes and in November 2009 in Afghanistan, under intense pressure, he saved the lives of his comrades with the longest confirmed sniper kill - 2,475 meters. In this unflinching autobiography, Craig catapults us into the heat of the action as he describes his active service in the Balkans, Iraq and Afghanistan, and gives heart-stopping accounts of his sniper ops as he fought for his life on the rooftops of Basra and the barren hills of Helmand province. Craig was blown up by an IED in Afghanistan and left battling severe PTSD. After his identity was revealed in the press he also had to cope with al Qaeda threats against him and his family. For Craig, the price of heroism has been devastatingly high. Powerful and compelling, The Longest Kill is a must-read for fans of military memoirs.

He is the author of five other plays, including Ground Level (1974), which led to a television series, Joe & Koro. Craig's most recent book, the young-adult comedy The Dumpster Saga, was a finalist in the 2008 New Zealand Post Book Awards. He lives in Palmerston North. 'Cuts to the heart of our most basic fears...compelling...a classic.' Bernard Beckett 'Excellent...The inevitability of the horror has a Hitchcock quality.' Listener
