The maltreatment of children is an issue that has always been with us and civilized societies provide a range of services both social and medical to care for the children and families afflicted. In recent years, greater attention has been drawn to the medical aspects by competent authorities in the fields of forensic medicine, forensic psychiatry, epidemiological psychiatry, child psychiatry and family psychiatry; as well as the social aspects by those child welfare and child care agencies who have the difficult and distasteful task of removing children, with the help of the courts, from parents who can abuse them and are not able to care for them adequately. A multitude of social agencies, whose range of activities involve both the care and, where possible, the social betterment of afflicted families are now involved. Not least in importance is an increase in our global knowledge to help in the prevention or better treatment of these problems. This means more information on familial and genetic factors in human

'Many books on management are sanitized, cleanly technical accounts of the unreality of managerial life and work. Politics hardly feature. This book tells it like it is: it dishes the dirt, gets low-down, into the funky and fascinating politics of organizational life' - Stewart Clegg, Aston Business School and University of Technology, Sydney Combining a practical and theoretical guide to the politics of organizational change, this book provides an exceptional resource to

students of change management, and organizational behaviour. Buchanan and Badham show how the change agent who is not politically skilled will fail, and that it is necessary to be able and willing to intervene in the political processes of the organization. This revised edition includes a range of excellent new material and features, including: - a new chapter on gender in approaches to organization politics - a full range of teaching materials including case studies, incident reports, self-assessments, and more - Each chapter recommends a feature film (or DVD) to illustrate aspects of organization politics - fresh research evidence - recent literature on the nature of entrepreneurial politics; - a model of political expertise, and how that can be developed This lively and engaging book is key to MBA and other Masters degree candidates taking courses in change management, and organizational behaviour. It will also be valuable for practising managers on tailored executive programmes in organization politics.

"At last there is a lucid, well-written OB book, which covers key issues required in OB teaching, but which has a mind of its own. Students and faculty will recognize this is more than standard fare." - Bill Cooke, Manchester Business School

This illuminating book cuts through these conflicting issues to show how organizational communication plays a vital role in confronting uncertainty. Arguing that many managers
