This project-oriented facilities design and material handling reference explores the techniques and procedures for developing an efficient facility layout, and introduces some of the state-of-the-art tools involved, such as computer simulation. A "how-to," systematic, and methodical approach leads readers through the collection, analysis and development of information to produce a quality functional plant layout. Lean manufacturing; work cells and group technology; time standards; the concepts behind calculating machine and personnel requirements, balancing assembly lines, and leveling workloads in manufacturing cells; automatic identification and data collection; and ergonomics. For facilities planners, plant layout, and industrial engineer professionals who are involved in facilities planning and design.

Contributors Include Thomas Szasz, D. Elton Trueblood, O. Hobart Mowrer, Richard T. LaPiere, Hervey M. Cleckley, George P. Grant, Henry S. Kariel, Alan Keith-Lucas, David McCord Wright, David Spring, And James Wiggins.

Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

Here at last is a reissue of Kasper's major work with a brilliant new introduction surveying recent developments in Christology. Kasper assesses the Christological enterprise in the Church from the earliest down to the most recent times which can be recommended without hesitation to teacher and serious student. The book also provides a solid theological basis for preaching. This may also be described as a work of Christian serenity, but one which is not indifferent to current problems. It is the fruit of the deep peace which all men can gain from contemplation of Jesus the Christ. As Karl Rahner has said - this book is 'modern' in the very best sense of the word. Synthesising biblical, philosophical and traditional material, the book remains essential reading for specialists and is used widely for courses on Christology - the very basis of Christian theology itself.

Cardinal Walter Kasper's contributions to theology, ecumenism, Jewish-Christian relations, and the pastoral life of the church have shaped Catholicism in the twentieth and twenty-first centuries. Acknowledging this, Pope Francis has praised Kasper's "profound and serene" theology. In *The Theology of Cardinal Walter Kasper: Speaking Truth in Love*, leading theologians from across the United States and Canada explore the full scope of Kasper's thought on topics such as the character of ecumenical and interreligious dialogue, Christology, theological method, and the nature of the church-world relationship. Kasper himself presents four previously unpublished texts: on the interpretation of Vatican II, on forgiveness, on Christian hope, and on the approach to theology today. This volume originated at a conference, at which Kasper was an active participant, in honor of his eightieth birthday. It provides an introduction to Kasper's thought and also an overview of major issues in contemporary Catholic theology.

Discusses the nature of revelation as doctrine, history, and inner experience, and examines its relationship to the Bible, eschatology, and other religions
