A bold exploration and call-to-arms over the widening gap between AI, automation, and big data—and our ability to deal with its effects We are living in the first exponential age. High-tech innovations are created at dazzling speeds; technological forces we barely understand remake our homes and workplaces; centuries-old tenets of politics and economics are upturned by new technologies. It all points to a world that is getting faster at a dizzying pace. Azeem Azhar, renowned technology analyst and host of the Exponential View podcast, offers a revelatory new model for understanding how technology is evolving so fast, and why it fundamentally alters the world. He roots his analysis in the idea of an “ exponential gap ” in which technological developments rapidly outpace our society ’ s ability to catch up. Azhar shows that this divide explains many problems of our time—from political polarization to ballooning inequality to unchecked corporate power. With stunning clarity of vision, he delves into how the exponential gap is a near-inevitable consequence of the rise of AI, automation, and other exponential technologies, like renewable energy, 3D printing, and synthetic biology, which loom over the horizon. And he offers a set of policy solutions that can prevent the growing exponential gap from fragmenting, weakening, or even destroying our societies. The result is a wholly new way to think about technology, one that will transform our understanding of the economy, politics, and the future.

A heartwarming memoir of a couple who takes in a homeless man and the life-altering effect the experience has on all three of them. For years, “ Fisher King Mike ” wandered L.A., preaching to his people. On occasion he ’ d share an open mic night with Michael Konik, who offered a curious and sympathetic ear, particularly when the Fisher King lamented his separation from his wife (who he claimed was Selena Gomez). As the pair began to trust one another, confusion and distance gave way to something that astounded them both. The Unexpected Guest gives love profound new dimensions with its story of family, friendship, and the meaning of home. Konik offered food and a pair of pants when his new friend came by, and wondered how much he owed the troubled Fisher King a question all of America faces with the nation ’ s ongoing homelessness crisis. When Konik and his wife gave Fisher King Mike a place in their home, handy as he turned out to be with household projects, they witnessed a guest become a caretaker. Gone was the man who gave sermons about his supposed estate next door to Kanye West. Gone was the man drifting through life. What each never saw coming was their own transformation and the lessons they ’ d learn about what it means not only to be good people, but simply to be human. Praise for The Unexpected Guest “ Heartwarming, compassionate, and well-crafted, The Unexpected Guest gives voice to those rarely heard, compels you to look closer when you want to look away, and reveals the joy of caring for others. ” Pete Earley, New York Times –bestselling author of Crazy: A Father ’ s Search Through America ’ s Mental Health Madness, 2007 Finalist for the Pulitzer Prize “ What a pleasure to read a book that is quick in pace, absent of cynicism, and packed with conversations and stories we desperately need. The Unexpected Guest exceeded my already high expectations. Michael Konik does something that few journalists, let alone politicians even attempt to do. He humanizes the people who are without shelter. I won ’ t be soon forgetting “ Fisher King Mike. ” “ Dave Zirin, The Nation “ A deft meditation on the ordinary magic that happens when you open your heart and home, one small step at a time. Poignant, timely, compulsively readable. Konik ’ s story of family lingers long after the last page. ” Jack McCallum, New York Times –bestselling author of Dream Team “ Honest and entertaining, this book forces readers to confront the systems of inequality in which we are all implicated. ” Kirkus Reviews

From the author of *The Red Notebook*, described as 'Parisian perfection' by HRH The Duchess of Cornwall, *The President's Hat* is a delightful fable about an unsuspecting accountant who happens upon President Mitterand's hat. 'Enjoy it for its fabulistic narrative, and the way it teeters pleasantly on the edge of Gallic whimsy' *Guardian Paperback of the Week* Dining alone in an elegant Parisian brasserie, accountant Daniel Mercier can hardly believe his eyes when President François Mitterrand sits down to eat at the table next to him. Daniel's thrill at being in such close proximity to the most powerful man in the land persists even after the presidential party has gone, which is when he discovers that Mitterrand's black felt hat has been left behind. After a few moments' soul-searching, Daniel decides to keep the hat as a souvenir of an extraordinary evening. It's a perfect fit, and as he leaves the restaurant Daniel begins to feel somehow ... different. As an unabashed dog lover, Alexandra Horowitz is naturally curious about what her dog thinks and what she knows. As a cognitive scientist she is intent on understanding the minds of animals who cannot say what they know or feel. This is a fresh look at the world of dogs -- from the dog's point of view. The book introduces the reader to the science of the dog -- their perceptual and cognitive Abilities -- and uses that introduction to draw a picture of what it might be like to be a dog. It answers questions no other dog book can -- such as: What is a dog's sense of time? Does she miss me? Want friends? Know when she's been bad? Horowitz's journey, and the insights she uncovered from studying her own dog, Pumpernickel, allowed her to understand her dog better, and appreciate her more through that understanding. The reader will be able to do the same with their own dog. This is not another dog training book. Instead, *Inside of a Dog* will allow dog owners to look at their pets' behaviour in a different, and revealing light, enabling them to understand their dogs and enjoy their relationship even more.

Congratulations! You are about to become, or recently became, a new mom. But now what? You may feel overwhelmed by all the advice given to you by friends, family members, online sites, and the slew of contradicting information about calming a crying baby, getting on a feeding schedule, and training your infant to sleep through the night. BabyCalm™ (a company founded in 2007 in England by Sarah Ockwell-Smith and expanding to the United States this year) runs classes that aim to turn stressed-out parents and crying babies into happier parents and calmer babies. In BabyCalm™, Ockwell-Smith sets out to provide new mothers with the inspiring ethos and methods of her successful company. BabyCalm™ aims to empower new parents to raise their baby with confidence. Focused primarily for new mothers (but with a plethora of sound advice for fathers as well), Ockwell-Smith provides a wealth of information—starting with trusting your maternal instincts above all else—on calming your crying baby, implementing sleep training techniques, facilitating a feeding schedule, bonding with your new infant, understanding your baby's essential needs, and much more. Including parenting tips from around the world as well as ways in which to create confident children, BabyCalm™ is the only book you'll need to set you on the solid path of good (and stress-free) parenting during your baby's first year.
